

FI Group is the largest innovation consulting firm in Europe, is seeking a Grants Consultant to join our team in Brussels. This opportunity would ideally suit someone with a real passion for European and National Innovation programmes.

We are growing our grants team and are looking for experimented talents enthusiastic by the prospect of taking part in building something.

FI Belgium is looking for a **Grants Consultant** to support the team in European and Regional public funding schemes. It is an excellent opportunity to take part of our team:

Functions:

- Coordination of representative tasks in the National and Regional Institutions working closely with the different areas of FI Group
- Networking, visibility, and representation of interests of FI Group in different forums and associations.
- Follow up of National and European Regulation related to Innovation Funding Programmes, VLAIO, SPW, Next Generation EU, other funding programmes (energy, social innovation, etc).
- Searching partners for National Collaborative Projects.
- Supporting the writing of the proposals of National & European Grants.
- Proactive participation in the Global Grants Service Strategy.
- Follow up Business KPI (objectives, turnover, opportunities, market share, services related to grants, etc)

Requirements:

- Graduate.
- Demonstrable knowledge of Grants Programmes, National Funding, National and European Institutions.
- Knowledge of National & regional Grants of Belgium.
- Practical knowledge of the European framework for R&D funding, structure, and functions of the European Commission and the RTD Programs.
- Languages: Fluent in English and Dutch.
- Good client management skills.
- Availability to travel.
