### Job title

Junior Technology Consultant - Digital Transformations (September 2024) (Technical profile)

### Function

Advisory - Junior Advisor

### Roles & Responsibilities

Are you a hands-on technical person who is passionate about delivering a qualitative result? Are you striving to achieve the best possible solution to a problem? If the answer to these questions is yes, then KPMG has an offer for you.

As a Junior Technical Consultant in our team, along with our solution architects, you are responsible for the embodiment of the solutions that we deliver to our customer(s).

Working within a team you will be responsible for translating business requirements into technical documentations and then using these specifications to assist in the creation of the desired architecture, design and implement of these solutions. You will be supported by a team of technical and functional consultants to help make this happen.

Start date: September 2024

- Ability to understand the big picture -effectively articulate technical challenges and solutions; research, learn, and experiment with software tools, technologies, and hardware
- Ability to think abstractly and deal with ambiguous/undefined problems
- Verbal and written communications skills
- Ready to continuously invest time to keep up to date with the latest technologies in either the Microsoft, SAP or Servicenow Stack

- Creating custom code where required to achieve integrations using the **Azure Stack** or realize new features in the Microsoft D365 platform
- Assist in creating the perfect cloud or workplace architecture and roll-out this architecture in the Microsoft (cloud) platform.

The KPMG HR team answers your frequently asked questions!
