

# The management reporting platform turning data into performance

Are you looking to **consolidate** financial and operational reporting? BrightAnalytics brings you **full transparency**. Gain insights into the corporate **performance** of your **entire organization** – cross divisions, cross operations and cross entities.

Don't want to lose time in setting up complex reporting tools that don't make the grade after all? Manage your financials **intuitively** with BrightAnalytics. Clear reports help you to better **streamline** your business **strategy** and its **realization**, easily providing full transparency to management, stakeholders and even the entire organization.

## Always know how your organization performs

BrightAnalytics gives you the tools to **constantly monitor, manage and drive your corporate performance**. Use insightful and transparent reporting and analyzing tools to:

- focus on the figures that really matter
- take faster, substantiated strategic decisions
- accelerate your business' growth

## Quickly report financials to management, stakeholders and even the entire organization

- Give **real-time** transparency based on roles and requirements
- Create budgets and **consolidate** without a hitch
- Focus on **data analysis** not data collection
- Easily finalize **management reporting** on time, every time

## About us

At BrightAnalytics, we believe in performance. We help organizations constantly evaluate and challenge themselves to do more. We give people the tools and the power to be on top of their organization's performance. To focus on the financials that matter. To take data-driven decisions faster. Want to go for more? Believe in turning data into performance with BrightAnalytics.

## Multi-source

No central accountancy or ERP system required: BrightAnalytics connects with any application and centralizes the data you need.

## 30 day set-up period

You can **get started** with BrightAnalytics in just one month. Including analysis, delivery and up to 3 years of historical data.
