Here's an exciting opportunity to participate to this innovative project that will allow you to unleash your full potential, acquire a lot of various skills and contribute to a more sustainable society.

YuKan is looking to enlarge its team by a **Environmental Engineer Intern** for a period of **2 to 6 months**. The intern will be closely followed up by a team of dynamic professionals, that are passionate to share their knowledge and raise your skills to the next level.

About
us

YuKan is a new start-up hub located at the heart of the dynamic co-working space **Factory Forty** in **Brussels**. Its ambition is to become **the European reference as the first numerical & independent community platform**, that provides a rating scale for environmental footprint evaluation at product unit. YuKan further offers tools that facilitate environmental impact analysis throughout product development process.

The platform has been built with the aim to provide a **meeting-point between consumers and industries** that share the vision to shape the future of the **green economy**, which leads to enhanced **innovation in sustainable product development**.

About
your role

You will work directly with the founders, and **learn a lot in different domains**. You will mainly have a role of **environmental models creator** – no environmental expertise is required. You will also likely assist as **business developer**, accompany client in their use of the platform (training and helpdesk) and lots of other transversal tasks in a growing start-up.

About
you

- You have an **engineering background**, you are **rigorous, curious, critical** and **at ease with numbers**. You have a vision of a **greener future**
- You like learning the **industrial practices**
- You have a strong business acumen, **analytical** and **calculation skills**
- You are **proactive, autonomous, result and impact driven**
- Working 9/5 is not for you, you love to **learn and interact**
- You have a good **sense of humor**
