

## Product Software Engineer

Hooglede-Gits

### WHAT ARE YOUR RESPONSIBILITIES?

- You are team member of the EU product software team in which you assist and manage different projects;
- You define and document ideas, problems and challenges and assist in defining the EU strategy on digital building solutions;
- You map the landscape of window & door calculation software in EU and you perform benchmarks;
- You maintain a close relationship with software houses, machine manufacturers our local technical teams and customers;
- You ensure that databases managed directly by software companies and internally by Deceuninck (incl. changes implementation) are up-to-date with the latest evolutions in the product ranges;
- You propose and implement action plans to further develop digital solutions, in accordance with IT;
- You closely follow up evolutions and invest in knowledge & preparation of BIM models;
- You report to the Product Software Manager Europe.

### WHO ARE WE LOOKING FOR?

- You have a master degree with minimum 5 years relevant work experience;
- You understand the ins and outs of a window & door production process;
- You have knowledge on window software and databases;
- You have experience with ERP, CAD, CAM and CNC. You are a self-starter, a strong communicator and a team player;
- Fluency in English and communicative French. Knowledge of other languages like Dutch and German is a plus;
- You can be present multiple days per week at the office in Gits (BE).

## WHAT DO WE OFFER?

- A challenging job in an innovative, international company where you can feel at home and work with your colleagues to build a robust partnership with our clients, each from his role;
- Deceuninck is described as an entrepreneurial group with ambitious goals, a warm company where you are truly welcome and where you are given autonomy to excel in your job;
- An attractive, competitive salary with numerous fringe benefits. And what's more, we take care of our employees as much as possible;
- Care stands for attention to well-being, ironing service, flexibility in working hours and home working policy, working in a congestion-free environment. You can also get to know your colleagues better in a pleasant way at numerous activities, such as the Saint party, Summer - and afterwork drinks,...;
- A company where the values of Trust, Top Performance and Entrepreneurship are central every day.

## WHO ARE WE?

We are Deceuninck, the smartest choice for the most innovative window & door solutions. As a highly reliable partner to our clients around the globe we offer them eco-friendly products that increase the comfort of houses and buildings in terms of insulation, safety, acoustics and air quality. Our aim is to be a provider of solutions for a better world.
