

Who are we?

IKOS, the technology consulting company specialized in railway and energy, holds 17 offices in 9 countries (France, Belgium, Spain, Italy, Germany, Switzerland, UK, US and Canada). Today, over 950 engineers work for our company on large-scale railway and energy projects internationally.

IKOS consultants' expertise and skills span across the entire railway industry, including signalling, rolling stock, low voltage and telecoms, energy and high voltage, and infrastructures and tracks.

IKOS: an international, human-sized company with competences in RAIL AND ENERGY

IKOS GROUP's high-calibre internal training programs will enable you to evolve within our company and to build up your professional career path, both by responding to your expectations and offering you projects matching your ambitions.

Join us! Integrating IKOS means accelerating your career, participating in some authentic human experience and realizing your professional goals in a competitive and highly technological sector.

Junior Railway Engineering Consultant

To keep on building IKOS' growth and strengthen our engineering team in Belgium, we are currently looking for project engineers, keen to work on projects in the railway or energy sector.

Your tasks will include:

- Be in charge of activities in railway projects
- Manage a project in order to complete a work package
- Analyze project requirements and define the appropriate strategy
- Provide pieces of advice on technical problems
- Monitor the progress of the project
- Participate in coordinating activities in the field

This position is for you if:

- Master's Degree in Engineering in the field of electronics, telecommunications, software, infrastructure, mechanics, electricity or construction
- A first experience as an engineer is an asset
- Flexibility, initiative, autonomy and team spirit are your key words
- Excellent communication skills (professional and concise)
- Good knowledge of French and/or Dutch

If you are interested in this type of challenge, please contact us for further information.

Contact us by sending your resume by mail to jbeelen@ikosconsulting.com

IKOS fait partie des entreprises d'avenir où il fait bon vivre et travailler.
