MICROSOFT DYNAMICS 365 DEVELOPER

Function

The MS Dynamics 365 Developer will reinforce one of Itineris' **R&D teams**, in which he/she will be responsible for building **highly interactive, innovative applications for our standard UMAX solution**, using the latest Microsoft technologies (X++). The role is based in **Ghent (Sint-Denijs-Westrem)**.

What is UMAX?

UMAX integrates CRM, billing, invoicing, cash collection, meter data, asset and service management modules in one solution, offering utilities the tools & processes for effective sales, increased customer contribution margins, reduced lead times and streamlined operations. By doing so, it enables them to take operational performance and customer experience to higher levels, while cutting costs to serve.

As our MS D365 Developer, you...

- are **part of a Scrum team** that focuses on specific modules within UMAX
- have short **daily stand-ups** with your colleagues (fellow Developers, Testers and Functional Architect) to ensure the timely progression of the work
- guarantee the generalization/standardization of the minimal solution to obtain a **re-usable component in MS Dynamics AX**
- develop software **based on the design specifications** made by the functional and technical consultants
- apply your expertise to deliver **high quality development** work, according to the Itineris standards in an efficient and effective way
- **document** your work in a structured and transparent way

Our ideal candidate...

- has a higher degree, preferably in Computer Science
- has experience in **OO programming** (C++, C#, Java, .net ...)
- has (preferably) knowledge of X++, or at least the **desire to learn X++ (exhaustive training will be provided)**
- is a **pragmatic** thinker oriented towards finding **solutions**
- is willing to continually learn and be challenged
- is a **quality driven, result oriented team player**
- has a **keen interest in the Utility sector**
- has excellent oral & written communication skills in **Dutch and English**

We offer you...

- a **warm welcome!** Enthusiastic colleagues will help you integrate and quickly feel at ease with us
- to gain **valuable experience** in a fast-changing technological market
- **in-depth initial training** (a.o. in X++), long term **career development** and **personal growth**
- an **attractive & competitive** salary with fringe benefits, including a **company car**
- **spacious, modern headquarters** in St-Denijs-Westrem, a stone's throw away from the highway
- and... regular '**fun**' moments!
