

## About Itineris

**Itineris**, with HQ in Belgium, is a global technology company purely focused on **software and services for the energy and water industry**. Itineris is the developer of **UMAX**, a customer information system (CIS) and ERP solution fully integrated with and leveraging the power of Microsoft's Dynamics 365 platform.

Founded in 2003 and **Microsoft Gold partner**, Itineris has a sound financial base and has established an **impressive track record of successful implementations**. Our client portfolio consists of **international and regional players** such as De Watergroep, Eneco, Engie, Gazprom, City of Baltimore, Boston Water and Sewer Commission, Dakota Electric Association, ...

With offices in Europe and North America, we count **350+ IT and utility specialists** and are regularly looking for talented starters and experts to join our team.

Visit us at [www.itineris.net](http://www.itineris.net) and follow us on [Linkedin](#), [Twitter](#), [Facebook](#) and [Youtube](#)

To strengthen our national & international **Project Teams**, we are looking for an enthusiastic

## TEST CONSULTANT

### Function

After a **thorough initial training** period, the Test Consultant will **join a Scrum Team** that consists of various technical & functional experts (a.o. architects, analysts, developers). The TC is **responsible for the qualitative testing services of our UMAX products & solutions before their 'go live'**. He/she ensures the successful finishing of a project by executing the **integration & system tests** and guaranteeing that these tests were conducted according to **internal standards and methodologies**.

### What is UMAX?

UMAX integrates crm, billing, invoicing, cash collection, meter data, asset and service management modules in one solution, offering utilities the tools & processes for effective sales, increased customer contribution margins, reduced lead times and streamlined operations. By doing so, it enables them to take operational performance and customer experience to higher levels, while cutting costs to serve.

### As our Test Consultant, you...

- **analyze** functional & business requirements
- **develop test cases**
- convert test cases into **test scenarios** and **execute** these scenarios
- **report status** of test progress and **log defects** accurately
- **communicate** with the (test) team and Project Manager
- maintain a professional relationship with functional & technical teams
- contribute to & share **business and test knowledge** within the team
- are a **key player** in the success of the UMAX application, which is **the lifeblood of our customers!**

### Our ideal candidate...

- is a **dynamic team player** looking to **grow** in an evolving, international environment
- has a Bachelor or Master's degree, with a **keen interest in the ICT & Utilities sector**
- is **detail oriented and accurate**
- has a strong interest in **understanding** customers' **business processes** (functional knowledge)
- is a **native Dutch speaker** with good oral & verbal communications skills in **English**
- **takes initiative!** You are capable to extract information from key-persons and not afraid to go in depth
- is willing to & capable of **continuously learning**

Nice to have:

- deep knowledge of a business application (ERP)
- prior experience in a testing role or knowledge of utility business

### What we offer...

- **A warm welcome!** Enthusiastic colleagues will help you integrate and quickly feel at ease with us
- You will gain **valuable experience** in a fast-changing technological market
- Long term **career development** and **personal growth**
- For those who want to: the possibility to work on projects **abroad** (NL, UK, US...)
- Work for a **Microsoft Gold Partner**
- A very attractive and competitive salary with fringe benefits (**including a company car**)
- **Brand new, modern Headquarters** (as from July 1<sup>st</sup>), a stone's throw away from the highway
- Regular **'fun'** moments!

### Meet Phyline!

**Discover how it is to work for us!** Read her story of [Phyline](#), who has started with Itineris as a Test Consultant a couple of years ago.
