## Position description

---

### Job title

Internship Technology Consultancy

### Function

Advisory - Intern

### Roles & Responsibilities

As an intern at KPMG Technology, you'll be involved in various projects in one of the following domains:

- Data & Analytics, AI, Automation, etc
- Digital Transformation (SAP / Microsoft Applications, IT strategy, cloud, etc)
- Digital Risk Management (Cyber security, privacy, IT governance, assurance, etc)

Depending on your background and interests we can define your focus areas and responsibilities together.

#Economics #STEM #Internships

### Location

Zaventem HQ

### Skills & Qualifications

You are a student in computer sciences, industrial engineering, information management, (applied) informatics, (business) IT or an IT/tech related study or equivalent (major/minor).

While academic qualifications are important, there are several other main competences we highly value, including:

- A broad interest in IT and business processes
- Enthusiasm about working in a project based environment
- Strong client orientation and being a real team player
- A natural ambition and high motivation
- Fluent in Dutch or French and English

### We offer

We offer internships throughout the academic year in our Zaventem HQ or in our office in Antwerp. The duration and the work schedule (full time/part time) can be determined in mutual consultation.

At KPMG, we truly believe our people are the heartbeat to our success. We commit ourselves to encouraging true team spirit and creating an international and dynamic working environment in which each can pursue the knowledge needed to boost their career. Additionally, as Top Employer, we highly invest in our people's development of soft skills and technical knowhow.
